GitHub: https://github.com/ANA01SHARMA Mobile: +91-8092684570

Skills

Languages: Java, Python, C, C++, HTML, CSS
Frameworks: NumPy, Pandas, Matplotlib, Scikit-learn, Seaborn
Tools/Platforms: Microsoft Excel, Power BI, MySQL, Git, GitHub
Soft Skills: Leadership, Problem-Solving, Adaptability, Creativity

Projects

U.S. Chronic Disease Trends And Health Determinants – Power BI | GitHub Link Nov'25 - Dec'25

- Designed an interactive Power BI dashboard to examine chronic disease patterns across 309,216 columns and 34 rows, covering demographics, geography, and multi-year trends
- Processed CDC public health data using Power Query and DAX to deliver analysis-ready insights
- Evaluated pre- and post-COVID (2020+) mortality trends using years of time-series and comparative analysis
- **Tech**: Power BI, DAX, Power Query, Microsoft Excel, CDC public health data

Broadcast Chat Server – Java | GitHub Link Jun'25 - Jul'25

- Engineered a broadcast chat server supporting 10+ concurrent clients for real-time message dissemination
- Configured socket-based communication protocols and message handling mechanisms to enable reliable low-latency client–server data exchange across multiple connections
- Orchestrated multithreaded execution to handle concurrent client connections without performance degradation
- **Tech**: Java, Java Swing, Socket Programming, Multithreading, Client–Server Architecture, I/O Streams

Game Event Chatbot – Python | GitHub Link Mar'25 - Apr'25

- Created an intelligent chatbot capable of responding to 100+ real-time game event queries with contextual accuracy, improving user interaction and automated event assistance
- Integrated frontend and backend components to deliver a responsive UI with sub-second interaction latency
- Optimized API performance by implementing context caching, token counting, conversation trimming, and retry logic, significantly improving response reliability and reducing failures by 30%
- **Tech**: Python, JavaScript, CSS, Node, React.js, React Router, Fast API

Training

Java & MySQL Application Development | Link Jun'25 - Jul'25

- Hands-on training in Java and MySQL Application Development, covering OOP principles and JDBC connectivity, building applications integrating MySQL for efficient data storage and retrieval

Certificates

- Certified Essentials Automation Professional – Automation Anywhere | **Link** Dec'25
- Cloud Computing – NPTEL | **Link** Oct'25
- Data Structures and Algorithm – NeoColab | **Link** Dec'24

Achievements

- Solved 200+ LeetCode problems in data structures and algorithms | **Link** Mar'26

Extra-Curricular Activities

AI/ML Workshop at AWS SCD Jalandhar 2025 | Link Dec'25

- Participated in the AI/ML Workshop at AWS SCD Jalandhar 2025, covering ML workflows, model building, AWS tools, and earning a Credly badge

Web Ka Hackathon | Link Mar'24

- Completed the 24-hour Web Ka Hackathon organized at Lovely Professional University

Education

Lovely Professional University Punjab, India
Bachelor of Technology - Computer Science and Engineering; ***CGPA: 7.31*** *Aug'23 - Present*

Kendriya Vidyalaya Maithon Dam Dhanbad, Jharkhand
Intermediate; ***Percentage: 76.6%*** *Apr'22 – Mar'23*

Kendriya Vidyalaya Maithon Dam Dhanbad, Jharkhand
Matriculation; ***Percentage: 91%*** *Apr'20 – Mar'21*
